To Whom It May Concern,

LETTER OF RECOMMENDATION FOR ABDULFATAI JAMIU

I am writing this letter to give my highest recommendation for **Abdulfatai Jamiu**, who served as an **AI Model Evaluator Consultant / UIUX Designer** at Kremor AI till date.

Jamiu has been an indispensable contributor to our model assessment workflows. He has demonstrated exceptional expertise in forensic benchmarking, dataset annotation, and qualitative evaluation for both Large Language Models (LLMs) and generative image systems. His deep understanding of AI safety, prompt alignment, and complex multi-modal output verification has consistently elevated the precision and reliability of our platform deliverables.

In addition to his technical rigor in AI evaluation, Jamiu brings strong product intuition as a **UIUX Designer**, analytical clarity, and clear communication. He balances his technical insights with a sharp eye for user experience, making critical contributions to multidisciplinary discussions and adapting seamlessly to high-throughput research cycles under tight deadlines.

Jamiu's professionalism, technical acuity, and dedication make him a standout asset to any forward-thinking organization or advanced academic program. I wholeheartedly recommend him without reservation.

Please feel free to contact me directly should you require any further information regarding his contributions.

Sincerely,

Saheed Alabi
